

# CONGRATULATIONS!! YOU ARE NOW A SKYDIVER!!

Skydiving is a modern game, often described as The Space-Age Sport. Its progress and popularity has increased at a phenomenal rate in Australia with over fifty-seven Clubs and Centres around the Country. Skydiving has developed into a major competitive and recreational sport for people like you all over the world.

Enthusiasts give as much time and effort to training and practice as participants in athletics and other top Olympic sports. Skydiving is a sport which presents a challenge for many people. It is a sport of discipline, commitment and most of all, FUN!

## THE PARACHUTE SCHOOL IS OFFERING YOU THAT CHALLENGE!!

The next step in your Skydiving career is to obtain your 'A' License. This qualifies you to pack and use your own parachute (more commonly called 'rig'), and is the next step to having even more fun as you build on your existing skills. Of course, once you're using your own equipment, jump prices drop dramatically because you are no longer paying for rig hire or instruction. Jump prices then generally range from between \$30-\$40 per jump. As you progress in your Skydiving career, you train for the next level of license which has certain requirements and benefits.

### Your ticket to seeing the world!

- Be part of a global community, with a Dropzone in every major city (worth going to!) Why not visit them all!
- See the truly spectacular beauty of Earth, from thousands of different locations across the globe!
- Be part of a wild and lively social scene, making new friends all over the world! A skydiver will *always* talk to a fellow skydiver!
- Experience the extreme adrenaline rush thousands of times over! The only truthful way to get high!! 14,000 ft HIGH!!!
- Build up your skills, choose your discipline, practice and specialize, enter national and international competitions, represent your home Country and Dropzone, even walk away with a Gold medal! Anything is possible in Skydiving!!

### Skydiving Disciplines for you to try out:

- Formation Skydiving / Relative Work
- Freeflying
- Vertical Relative Work
- Style and Accuracy
- Freestyle
